### **MEDIA ALERT** **LUS Fiber Announces First Service Area**

**What:** Lafayette Utilities System will announce the first areas in the city to be served by the LUS Fiber project for which residents will begin seeing the first visible signs of progress on the revolutionary project on Thursday, February 7 at Lafayette City Hall in the Council Auditorium.

LUS Fiber ([www.lusfiber.com](http://www.lusfiber.com)) will deliver state-of-the-art fiber optics to every home and business in the city, including phone, Internet and cable TV services. The system deploys more than 870 miles of fiber optics in a passive optical network using both analog and IP digital video (TV), high-speed Internet and phone that services more than 57,000 homes and businesses within the city of Lafayette.

**When:** **THIS THURSDAY, FEBRUARY 7, 2008, at 9 a.m.**

**Why:** LUS has been given the confidence of the people and the support of the investment community to make this dream for Lafayette a reality. Now residents and business owners can begin to make their plans to embrace this new technology that will move them forward with the best in cable TV, phone and Internet service.

**Where:** Lafayette City Hall, council auditorium

**Contacts:** LUS Director Terry Huval and Lafayette City-Parish President Joey Durel will be available for interviews.
